Children Cry

for PITCHER'S

CASTORIA

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me."

H. A. ARCHER, M. D.

111 South Oxford St., Brooklyn, N. Y.

"I use Castoria in my practice, and find it specially adapted to afflictions of children."

ALICE ROBERTSON, M. D.

1057 2d Ave., New York.

"From personal knowledge I can say that Castoria is a most excellent medicine for children."

Dr. G. C. Oswood,

Lowell, Mass.

Castoria promotes Digestion, and overcomes Flatulence, Constipation, Sour Stomach, Diarrhoea, and Feverishness. Thus the child is rendered healthy and its sleep natural. Castoria contains no Morphine or other narcotic property.

POLITICAL POINTERS.

Presidential Preferences in Several Different States.

NEW YORK SOLID FOR HILL

Conventions held in a number of counties and delegates instructed to cast their votes for the Senator—A combination in the Northwest to offset this and give Cleveland a boom—Other political information.

ALBANY, Feb. 15.—The anti-Hill sentiment has developed in several of the counties, but not sufficiently to change the result or even make much trouble. In fact, Hill is an overwhelming favorite among the delegates chosen to represent the Democratic party in the state convention.

The counties carried for the senator Saturday were: Dutchess (two districts), Orange, Schuyler, Tioga, Steuben, Seneca, Greene, Montgomery, Orleans, Cayuga (two districts), Jefferson (two districts) and Richmond. Saturday's results bring Hill's total number of pledged delegates up to 102. The number of delegates to be elected is 384.

In nearly all the conventions resolutions were adopted indorsing the mid-winter convention and laudatory of Senator Hill. All of the delegates elected are favorable to his nomination for the presidency. Only six Cleveland delegates have been chosen.

CLEVELAND COMBINATION.

Five Northwestern States to Vote Solidly for the Ex-President.

CHICAGO, Feb. 15.—A combination is said to have been engineered during the past ten days to throw the votes of five northwestern states solidly to Cleveland at the Democratic convention. The states mentioned as being included in the combination are Minnesota, Wisconsin, Iowa and the Dakotas.

They will, so the Democratic committee, be unanimous for Cleveland from the start, with the exception of Iowa, which asks the privilege of casting a complimentary vote for Boies on the first ballot. It is agreed that all the states shall hold early conventions.

The Minnesota committee will meet Tuesday, and name the date of its convention for March 23, and the others will follow in quick succession, all being held before April 15.

This solid northwestern move, its promoters state, is to offset the effect of Hill's New York convention in February.

GEORGIA'S GUESS.

Over a Thousand Democrats Interviewed on the Subject.

ATLANTA, Feb. 15.—The Atlanta Journal prints a poll of the state of Georgia on presidential preferences, and correspondents were instructed to interview twelve of the most prominent Democrats in each county. The result shows an overwhelming majority for Cleveland. Out of 1,239 prominent Democrats interviewed Cleveland is the first choice of all but 800. Cleveland received 840 first choice votes. Hill is second with 270. Gorman gets 24, Gray 18 and the rest are scattered. The reports come from eighty-seven towns and eighty-three counties.

Joseph E. Brown, four times governor of Georgia and twice United States senator, and the strongest man politically in the state, has written a long letter to the Atlanta Constitution urging the Democrats of the country to nominate Senator Hill for the presidency at the Chicago convention.

New York Republicans.

NEW YORK, Feb. 15.—The executive committee of the Republican state committee has decided to call a meeting of the state committee at noon Feb. 29 at the Fifth Avenue hotel, this city. It is understood that the state convention to elect delegates to the Republican national convention will be held the first week in May.

AURORA BOREALIS.

CINCINNATI, Feb. 15.—A gorgeous illumination of the heavens was visible Saturday night at cities over a thousand miles apart. It was the most wonderful exhibition of the aurora borealis or northern light possibly ever seen from American soil. Dispatches from different places show that the phenomenon stretched over a great belt of territory, from Iowa to the Atlantic coast.

From east to west the northern sky here was illuminated by an immense half circle flaming upward nearly to the zenith. At first almost blood-red, it dimmed at times to delicate pink, and would brighten suddenly. The circle was shot with rays of almost white light, all pointed outward from the circle. It began at 6:10 p. m., and for an hour was a gorgeous light. At 7 o'clock it began disappearing. The weather had been very warm throughout the day, but after the aurora rapidly grew colder.

This aurora was not altogether unexpected. In a general way auroras have been predicted for about this time. Saturday night's display naturally follows the appearance of the great sun spot which has been visible during the past week. Other aurora displays may be expected in the near future.

A peculiar disturbance known to telegraphers as an electric storm greatly hampered operators working wires for several hours after the display in the heavens.

Frozen to Death.

SARATOGA, N. Y., Feb. 15.—Nathan Phelps, one of the oldest residents here, wandered from home Friday night and was frozen to death in the street.

NATURAL GAS WAR.

Competing Companies Making It Pleasant for Consumers.

CELINA, O., Feb. 15.—The competition on natural gas consuming in this city has caused a large decrease in the price already. The old company say they will not be outdone by the new company, and will reduce the price lower than it is now. They issued a schedule that all consumers would be given gas for a No. 4 mixer for fifty cents, which has been heretofore \$1.88, and for a No. 5 mixer seventy-five cents per month, previous price \$2.

The new company have secured up to the present time over 400 stoves from outside consumers, besides their stockholders which will cover at least 600. The situation promises to be of great interest before the matter is fully settled. The new company is about completed, and will begin with the first of the month to contract with consumers.

The organization of a board of trade is on foot for the special purpose of inducing manufacturing industries to locate here on account of this war.

WHOLESALE POISONING.

Suspicion That a Rejected Lover and Ex-Convict Did the Deed.

CENTRALIA, Ills., Feb. 15.—The family of James Morton, living ten miles east of this city, was poisoned Friday morning at breakfast. Dr. Green, of Salem, was called and remained with the family all day and night. Mr. Morton died Saturday morning at 1 o'clock and his daughter died in the afternoon. Dr. Green took breakfast there Saturday morning and was suddenly taken ill himself. A sister who had come to assist the afflicted family was also stricken shortly after eating.

It is feared that the doctor and two other members of the Morton family will die. Suspicion has fallen upon Fois Parkinson, a young man of the vicinity. He is charged with having placed poison in the family flour barrel for the purpose of killing the entire family, because one of the girls had refused to receive calls from him after he had served a term in the Chester penitentiary for theft.

ABANDONED THE ENGINE.

A Passenger Train Running Wild at Frightful Speed.

BRAZIL, Ind., Feb. 15.—Saturday evening an eastbound passenger train on the Evansville and Indianapolis railroad was standing on the track at Saline City, this county, when a freight train by mistake was backed upon the main track. The engineer on the passenger train, to avert a collision, reversed his train and with the fireman jumped.

The collision was slight, but the passenger engine soon was running at a frightful speed. Conductor Stinson, fearing something was wrong, climbed over the tender and found the engine abandoned and the throttle wide open. He stopped the train just in time to prevent a collision with an incoming train.

BUCKEYES IN GOTHAM.

The Ohio Society of New York to Give Its Annual Banquet.

NEW YORK, Feb. 15.—The seventh annual banquet of the Ohio Society of New York will be held Saturday evening next at Sherry's, Thirty-seventh and Fifth avenue.

A special train will leave Washington in the morning, and President Harrison, with four members of his cabinet—Secretaries Foster, Noble, Elkins and Rusk—are expected to attend the banquet. The entire delegation in congress is invited, together with Senators Sherman and Ervin. Governor McKinley and ex-Governor Campbell will also be present, with a number of other distinguished residents of Ohio.

Cash Registers Seized.

DAYTON, O., Feb. 15.—Secret Service Officer John Webb, acting for the United States government, seized twenty-five automatic cash registers here Saturday among the business men because he found on the front of the registers fac-simile representations of twenty-five-cent pieces in silver. Three of these pieces were grouped together on each register to represent a trademark of cash. All the registers were destroyed and the manufacturers at Syracuse, N. Y., were notified to stop making the fac-simile of the government's money, and to call in all machines bearing such fac-simile trademarks.

Evidently a Victim of Drink.

DAYTON, O., Feb. 15.—Martin J. Steffen, a well-known man, who formerly practiced law here, but who recently gave up law, was found dying on the commons, near the fair grounds, Saturday morning. He was taken to the hospital by the patrol force, where he died at 1 o'clock in the afternoon. There were no marks of violence on the remains, and the coroner was called to make further investigations.

Damage Suit Against a Saloon Keeper.

GOSHEN, Ind., Feb. 15.—Josie Kane has filed suit against Sylvester W. Shumard for \$10,000 damages on the ground that the defendant unlawfully sold liquor to her husband, thereby alienating his affections, and that their home had been broken up.

Attempted to Board a Moving Train.

SEYMOUR, Ind., Feb. 15.—Daniel Donohue, aged sixteen years, had an arm and leg cut off in attempting to get on a moving train at Hayden, an Ohio and Mississippi station eight miles east of here, Saturday afternoon. He died Saturday night.

Greatest of His Sect.

LOUISVILLE, Feb. 15.—Elder Eades, the great Shaker, died Saturday in Logan county. He was probably the greatest man of his sect in the United States. He was seventy-five years of age.

WORK OF CONGRESS.

Forecast of the Week's Proceedings in Both Houses.

A MISCELLANEOUS PROGRAM.

The Printing Bill Will Be Disposed of in the Senate, and a Number of Other Important Measures to Follow—No Official Program for the House, But a Variety of Bills Are Likely to Come Up for Action—Other Washington Dishes.

WASHINGTON, Feb. 15.—The senate will still have the printing bill before it as the unfinished business during the coming week, with the Paddock pure food bill order to follow. Several senators have resolutions on the table subject to call which may be taken up during the morning hour for the purpose of submitting a few remarks. Among these is that of Mr. Palmer, of Illinois, a resolution providing for the election of United States senators by the people, and that of Mr. Call, of Florida, a resolution of investigation into alleged attempts of railroad corporations and their foreign bondholders to improperly influence the choice of a senator by the legislature of Florida in 1891.

The Dubois-Claggett contested election from Idaho has not yet been disposed of.

The military academy bill, the first regular appropriation bill of the season, is ready to be referred to the senate for its action, and it may come up at any time. No program of business has been arranged for the house for this week. Measures reported from the committee on judiciary will receive consideration during the early part of the week, and the Indian appropriation bill will probably be disposed of.

The Craig-Stewart contested election has been disposed of by the committee on elections, and, being a privileged measure, may be called up at any time.

The silver bill is being urged by a large number of members, and it is thought that the committee on rules will fix some day this week for the beginning of its consideration. A day will probably be devoted to the private calendar, and this, with the measures mentioned above and matters that may come from the committee on rules, it is thought, will consume the week.

Investigation Committee Appointed.

WASHINGTON, Feb. 15.—Speaker Crisp Saturday appointed the following committee to investigate the pension bureau: Wheeler, of Michigan, chairman; Little, of New York, and Duncan, of Ohio; Democrats; Lind, of Minnesota, and Brosius, of Pennsylvania, Republicans. This is in accordance with the resolution introduced by General Cattin from the committee on rules the other day.

Died After a Short Illness.

WASHINGTON, Feb. 15.—Dr. H. O. Witman, of this city, but formerly of Harpersburg, died suddenly at 1 o'clock yesterday afternoon in his sixty-third year. He had been suffering a few days only from erysipelas and was not supposed to be in any danger. He was one of the medical examiners in the pension bureau.

SHERMAN STATUE.

Appeal to the Old Soldiers to Contribute to Its Erection.

ST. LOUIS, Feb. 15.—The committee of the Society of the Army of the Tennessee, which has in charge the collection of a fund for the erection in Washington of a statue to the memory of General William Tecumseh Sherman, has issued an appeal to old soldiers.

The appeal is promulgated in the Grand Army of the Republic by Commander-in-chief Palmer, as general Order No. 7. It solicits the aid of all old soldiers, and asks that the collections be given to the quartermaster of the various posts, who will forward to the quartermaster general. Colonel J. F. How, of St. Louis, is treasurer of the Sherman statue committee.

TWO MORE DEAD.

Five Victims Now of the Wallace-Carr Collision in Tennessee.

NASHVILLE, Feb. 15.—Besides the three men who were killed in the feudal fight at Silver Point, Putnam county, last week, Miss Eliza Carr and John B. Wallace have since died, making five dead, and there is no hope for the recovery of Mack Mitchell and Andrew Carr.

Walter Tucker and Ben Wallace, of the Wallace gang, have been arrested and will be tried this week. The whole Carr family was wiped out by the Wallaces.

The fight, with its horrible consequences, was the result of a feud between the Wallace and Carr families.

Miner Horribly Mangled.

ALLIANCE, O., Feb. 15.—Joseph M. Gill, a coal miner at Salineville, fifteen miles east of this city, met with a horrible accident Saturday. He was pushing some empty coal cars from the coal chute to the mouth of the shaft, where they are lowered to the coal vein by a cage. From some cause the cage was not in position, and Gill, failing to notice its absence, pushed the cars into the shaft, and with them was hurled to the bottom, a distance of about one hundred feet, and mangled almost beyond recognition. He was sixty years of age, and leaves a wife and family in indigent circumstances.

Their Escape Frustrated.

CINCINNATI, Feb. 15.—A batch of workhouse prisoners attempted to escape Sunday night, but were discovered just before reaching their freedom and landed in dungeons.

REQUISITION REFUSED.

Governor Chase, of Indiana, Ignores Papers from Tennessee's Governor.

INDIANAPOLIS, Feb. 15.—Governor Chase has peremptorily refused to honor a requisition from the governor of Tennessee for the arrest and return of Mrs. Mary Bolen, of this city, to that state for trial

A LONG LIFE ENDED.

England's Centenarian Admiral Dead in London.

SIR PRORO WILLIAM P. WALLIS.

An Eventful Career Lasting Over a Hundred Years Closed by Death—He Was the Father of the British Navy and Captured the United States Steamship Chesapeake Off Boston Harbor in 1813. Other Foreign News.

LONDON, Feb. 15.—Admiral Sir Provo William Parry Wallis, K. C. B., aged one hundred, the senior admiral of the British navy, is dead.

SIR PROVO WILLIAM PARRY WALLIS
Sir Provo William Parry Wallis was popularly known as the "father of the British navy." His career has been an uncommonly brilliant one. He was a Canadian by birth, being born at Halifax in 1791. He began his naval experience in 1804, when he was appointed midshipman on the Cleopatra, and had his first taste of action six months later, when the Cleopatra succumbed to the superior power of the French frigate Ville de Milan. The Cleopatra was rescued after hauling down the British flag, and the French frigate became the prize of the Leander, a fifty-gun ship, without a shot being fired.

Wallis was made a lieutenant in 1808, when he was but seventeen years old, and took part in the capture of the French frigate Shannon, under Captain Broke, and was the only survivor of the great naval duel which took place off Boston harbor on the 1st of June, 1813, between that vessel and the American frigate Chesapeake. This encounter was one of the most famous sea fights the world ever witnessed, and though between single ships, ranks second only to Trafalgar in British naval annals.

Wallis was second lieutenant on this occasion, and his captain, Broke, having been terribly wounded, and the first lieutenant killed, the command devolved on him. The fight lasted about fifteen minutes, during which about one hundred men on both sides and all the principal officers were killed, including the gallant Captain Lawrence, of the Chesapeake. Lieutenant Wallis, for his services in this fight, was made a commander. The admiral always spoke of his American opponents with admiration, and attributed the victory of his side largely to luck.

In addition to being made a commander for his share in this battle, young Wallis received a letter of approbation from the admiralty and a sword from his captain. His promotion was very rapid afterward. In 1845 he was senior officer during the Syrian war; in 1851 he obtained full flag rank, and in 1857 he was appointed commander-in-chief on the southeastern coast of America. His promotion to vice admiral followed in 1858, since which time he has not been to sea, but was placed upon the active list for life in recognition of his long and creditable service.

For some time past Sir Provo has been in feeble health, but his mind was vigorous and his memory clear. The one hundredth anniversary of his birth was celebrated with fitting honors at every British naval station.

A CRANK IN CHURCH.

Sensation Created in the Court Chapel in Berlin.

BERLIN, Feb. 15.—A mild sensation was caused in the Court chapel yesterday while the Kaiser, Prince Henry, the Grand Duke of Baden, and other royal personages were present, by a man in the audience suddenly rising and crying out loudly and solemnly to the preacher, Dr. Vieregg: "Your words are useless; behold the millennium is at hand." The disturber was about to continue his remarks, but before he could utter another word the vigilant attendants had seized him and hustled him from the room. Court Preacher Vieregg continued his sermon, and the congregation quietly regained their composure.

It inevitably happens, however, that any occurrence in which the emperor is even remotely concerned speedily becomes the subject of most absurd gossip and exaggerations. Stories began to circulate throughout Potsdam and Berlin of something extraordinary having happened during the service; the Kaiser was said to have indulged in some eccentricity. Finally the tale was confidently passed from mouth to mouth that the emperor had shouted to the preacher to stop talking nonsense, and had suggested taking the pulpit himself for the purpose of expounding correctly some doctrine with whose treatment at the hands of the minister he had found fault. The crank after being removed was examined and found to be insane on the subject of religion. He proved to be the former pastor of a village near Krossen.

The Pope's Private Secretary Dead.

ROME, Feb. 15.—Mgr. Boccali, private secretary and intimate friend of the pope, died Saturday of influenza. His loss has caused great grief to his holiness.

SIOUX FALLS, S. D., Feb. 15.—The famous divorce case of Blaine vs. Blaine is practically settled. The defense will not put in an appearance, and the decree will be granted to Mrs. Blaine by default, and probably the custody of the child

BLOODSHED PREDICED.
Thousands of Anti-Lottery and Lottery Men Arming Themselves.

CHICAGO, Feb. 15.—A special to The Herald from New Orleans says:

There is to be a conference this week between committees from the lottery and anti-lottery wings of the Democratic party. The idea is to arrange a compromise agree on terms by which the great gambling enterprise may exist a year or so longer, withdraw the two Democratic tickets now in the field and name a new one, which both factions may support. It is not considered likely that the differences will be adjusted.

There is an intensity of feeling on this lottery question that can scarcely be quieted by committee action. Neither side is willing to make any concessions. It is considered much more probable that the points involved will be debated with the convincing argument of rifles and argued through smoke, than that they will be decided over a council table. There is no room for compromise, the anti-lottery people believe, and they declare that if the Louisiana lottery can not be killed by the law it must be downed in blood.

In the last three months thirty Democratic clubs have been organized, one in each ward of the city. The membership of the individual clubs ranges from fifty to 350 men and aggregate enrollment is 5,000, possibly more. As the election for governor will take place in April the forming of these clubs attracted but little attention. As the clubs were formed and the membership grew there was a singular commercial movement. At no time, since Ben Butler assumed municipal control, has there been such a steady demand for firearms as during the last few months. The prices of Winchesters advanced and shotguns became nearly as valuable and scarce as jewelry. Soon neither rifles nor fowling pieces were to be had and manufacturers had difficulty in filling orders.

Then it was learned that the new ward clubs were causing the unprecedented demand for weapons. Their meetings were secret, and were devoted to instructing the members in the manual of arms. The members of these clubs are associated for business. When it appears to them that the lottery has such a firm grip on the institutions of the state that the ordinary political and legislative methods can not loosen its hold, they will begin the transaction of the business for which they were organized. This will be the taking control of the state government by force.

The anti-lottery faction is not alone in preparing for bloodshed. The friends of the vast gambling corporation will also have an army at its call, but these forces will not have the discipline nor the stamina which may be looked for among the antis. When the lottery men began to arrange for the purchase of arms they found that hardly a Winchester or revolver was to be had in town. Realizing that the antis had already made preparations for the expected conflict, they hastily subscribed a considerable sum which was forwarded to a New England gun factory, and shortly afterward something like a shipload of rifles was stored in a warehouse on the levee here.

There is an old statute which forbids the storing of arms in Louisiana, except such as are kept on sale in stores or belong to military organizations. The governor will presently confiscate the warehoused guns, and in the event of an armed conflict the bodies of the lottery men will be perforated with bullet-holes.

DOUBLE SUICIDE.

A Young Farmer and His Wife Cut Their Throats.

GALLATIN, Tenn., Feb. 15.—A sensational tragedy is reported from Portland, a small town in the northern portion of Sumner county. Elvis Pardue, a well known young farmer of that neighborhood, and his wife were found at their home Saturday morning lying dead on the floor of the bed chamber with their throats cut from ear to ear.

The deaths were both the results of deliberately planned suicides. Both bodies were lying on pillows on the floor, and near Mrs. Pardue was a bloody razor, with which the ghastly deed had been committed.

The fact that the razor lay nearest Mrs. Pardue has led to the conjecture that she was the last to use the instrument of death. In fact, this theory is supported by a note found in the room written in Mrs. Pardue's hand and signed by her, in which it is stated that she and her husband had no friends, and as he had concluded to commit suicide she would take her own life rather than live without him. The couple had been married only a year. They appeared to live happily and no cause can be divined for the melancholy that seems to have led them to so desperate a conclusion.

CRIMINAL NEGLIGENCE.

Spreading of Smallpox at Newark, N. J.

NEWARK, Feb. 15.—Four additional cases of smallpox were reported to the health authorities yesterday. One was that of Mrs. King, of 198 Miller street whose condition was suspected a week ago. Several physicians examined her and diagnosed her ailment as chickenpox. It has developed, however, into a case of smallpox.

Another is the case of a six-year-old boy named Seifert at 290 Littleton avenue. He was removed to the pest house. His sister was sent to the pest house two weeks ago. Two younger children in the same family comprise the third and fourth cases. There is a fifth case reported as "suspected."

These cases are traceable to the Goe family, whom Dr. Edwards treated and failed to report to the health board.

Furniture Factory Burned.

NEW YORK, Feb. 15.—Fire this morning partially consumed the five-story furniture factory of Charles Lench, at 516-520 West street. It is supposed to have originated in a show room on the first floor and slowly burned its way to the second floor, where two large varnish tanks were reached by the flames, which furnished fuel that soon caused the flames to envelop the building. Three alarms were sent in, and the firemen worked heroically for two hours.
